New School Staff Safety Training Program for Kansas Schools
EMC Insurance Companies offers staff training from SafeSchools[®], free of charge

DES MOINES, Iowa (Aug. 15, 2013) – School districts in Kansas that insure with EMC Insurance Companies now have complimentary access to SafeSchools Training. This is a web-based safety training and compliance management system specifically designed for school employees.

“We’re teaming up with SafeSchools to help improve safety and security for school staff members, students and visitors by providing free access to high-quality online staff training that’s easy to use. This is one more way that EMC helps its policyholders increase safety and minimize losses,” said Jerry Loghry, loss prevention information manager with EMC.

This is the second phase of a new school staff safety training program EMC has launched in partnership with SafeSchools. EMC’s Des Moines and Omaha Branches piloted the program in Iowa, Nebraska and South Dakota earlier this year; now, the Wichita Branch brings the program to Kansas schools.

“EMC understands that SafeSchools Training fosters a culture of safety in a school community because it helps staff members be more aware of safety hazards, which is key to prevention, and prevention is always the goal,” said Brian Taylor, president and chief executive officer of SafeSchools.

SafeSchools Training has helped thousands of districts nationwide reduce costs and increase safety through effective staff training. Districts that have most successfully implemented the online training program have realized up to a 51 percent decrease in the severity of property and liability claims and up to a 58 percent decrease in workers’ compensation claims—saving hundreds of thousands of educational dollars a year. For an overview of the SafeSchools Training system, visit <http://www.safeschools.com/videos/>.

The SafeSchools Training system includes a comprehensive library of more than 250 online courses covering a wide range of important school safety topics such as Bullying Prevention; Bloodborne Pathogens; Sexual Harassment; Slips, Trips and Falls; Visual Weapons Screening and more. Each SafeSchools Training course is 100 percent school-focused and written by a leading authority on school safety. The training is available online, reducing the need for costly in-service days and time out of the classroom. Each course completion is automatically tracked and recorded by a state-of-the-art compliance management system, and a variety of valuable reports are available on-demand for administrators. Using SafeSchools Training, districts can comply with important state mandates and develop a sound risk management culture to help mitigate exposure and losses.

EMC agents who would like to learn more about SafeSchools Training may contact their EMC branch office or Jim

Nulsen, SafeSchools National Accounts Director, at 800-434-0154, ext. 7009, or email jnulsen@safeschools.com.
