Scenario Learning, LLC Acquired by Vector Solutions *Additional benefits and enhanced services for customers*

Cincinnati, Ohio (Feb. 16, 2017) – [Scenario Learning, LLC](#), the developers of the [SafeSchools](#), [SafeColleges](#), [SafePersonnel](#) and [Exceptional Child](#) brands, announces that the company has been acquired by [Vector Solutions](#), a long-time leader in online continuing education and performance solutions for a broad range of industries. Through its brands [RedVector](#), [TargetSolutions](#) and [LearnSmart](#), Vector offers highly targeted course libraries and award-winning learning and performance platforms specifically for architecture, engineering and construction (AEC), industrial, facilities management, IT and public safety clients.

By combining forces with Vector Solutions, Scenario Learning will be able to offer additional benefits and enhanced services to help customers build a strong, committed team of professionals capable of providing exceptional service. These include:

- Access to thousands of new online course titles
- Robust learning management and record keeping systems expertise
- Continued first-class support from a team of eLearning and industry experts

Vector Solutions offers individual courses to professionals as well as large-scale corporate training solutions to organizations, which feature customizable and easily accessible online universities with a full range of tracking and reporting features. With an online library exceeding 5,000 courses authored by more than 200 subject matter experts, Vector Solutions serves more than 400,000 professionals in all 50 states and Canada.

The recipient of numerous community honors and industry awards, Vector Solutions was founded in 1999 and has offices in Florida, California, Utah and Ohio.

For more information on the acquisition, please contact Brian Taylor, General Manager of Scenario Learning, at 800.434.0154, ext. 7004 or btaylor@scenariolearning.com.
