Scenario Learning Recognized as Best Place to Work in Ohio

Ohio Business Magazine Awards Growing Company for Second Consecutive Year

Cincinnati, Ohio (August 23, 2017) – [Scenario Learning](#), a [Vector Solutions](#) brand, announces [Ohio Business Magazine](#) has named the developer of market-leading safety and compliance solutions for schools and workplaces as 2017 Best Workplace in Ohio in the 50-200 employees category. This is the second consecutive year the company has won the award, which will be featured in the Fall issue of the magazine.

The award is a result of an extensive two-month vetting process by the publication. Nominees provide information on topics such as company size, engagement with employees, benefit structure and past awards. Winners are then selected by committee.

“We work hard to provide an environment where our employees are engaged and happy, which helps us better serve our customers,” said Brian Taylor, General Manager of Scenario Learning. “It’s an honor to be ranked among Ohio’s best workplaces for a second year and we look forward to expanding our team and customer base.”

This award follows two years of recognition in the Cincinnati Business Courier’s Best Places to Work Competition, an employee-driven award. Scenario Learning has previously won in the small business category and was also recognized with the spirit award. With over 70 employees and sales increasing at 30 percent annually over the past five years, Scenario Learning continues to grow at a record-setting pace.
